

DR JAN PETERS MBE

INCLUSION INNOVATOR AND TECHNICAL
CHANGEMAKER

www.drjanpeters.com

ABOUT JAN

An **Inclusion Innovator** helping engineers build engaged teams that design with people in mind through **coaching, facilitation, and consulting**. Jan is a business owner and Royal Academy of Engineering Visiting Professor with the Open University, Jan's **passion** is helping others **make a difference** through practical actions each person can do to build an inclusive space to learn and work. Researcher, author and campaigner, Jan has **influenced the national and international** efforts for advancing **women and minorities** in science and engineering for over 20 years.

SIGNATURE TALKS

You've gotta shape up. From getting PPE that fits to workplace artifacts. How to build an inclusive culture

Finding the me in Team. How individuals can take responsibility for creating an **inclusive culture**.

Talking talent. From challenging stereotypes to letting people be themselves. A **strengths lens** may be just what you need to boost your workforce

THE EXPERIENCE

Jan brings **energy and activism** to her talks and workshops. **Practical, relevant,** ideas to shift the things you do.

Whether it's improving your meeting 'hygiene' to be more inclusive or ways to give **praise and feedback**. Participants leave with new perceptions and vision on how to value people better.

OUTCOMES

Keynote, facilitated discussion or team workshop, everyone leaves energised with at least one nugget of knowledge catalysed from an interactive and informed experience.

DR JAN PETERS MBE

Bringing practical, science/engineering-based research
and activities to inclusion and belonging

AS SEEN

BBC Radio 4 Woman's Hour: Discussing PPE for women engineers
BBC Breakfast: Discussing the need for women in engineering
